

Episode 139: Launch a Successful Summit in ONLY 3 DAYS!!!

Publish Date: April 23, 2020

Speaker: Dr. Mark T. Wade

What if you could get your summit done in 3 days and have it be EPICALLY successful? You can and I'm going to show you how!

Less than 1% of entrepreneurs have ever hosted a virtual summit. You want to create a Virtual Summit. We all do. Then why don't most entrepreneurs ever do it?

Most of the summit hosts who've hosted summits have said it was one of the best things they ever did for their business. I've interviewed hundreds of them, and they all say that it was so beneficial.

But still most entrepreneurs never achieve the status of becoming a Virtual Summit Host.

I know the answer. It's simple. It's time. Most of them don't have 90 – 120 days to wait for the summit to bear fruit.

It's definitely worth it, and I think that excuse is silly, but it's the truth. The second reason is because they don't know how to do it, and or they are afraid they can't do it.

Here's the silver lining. That will never have to be a reason to stop anyone ever again!

I am excited to announce to you about our Summit Genesis Workshop. This is a 3-Day Virtual Intensive To Build Out Your Successful Virtual Summit.

I am going to help you get 90 Days of work created in 3 days and go from none to done with your virtual summit. Yeah, seriously.

In less than a week you can launch your summit and grow your list & revenue.

100% Virtual Workshop – You can Attend from anywhere and finally get your virtual summit created and launched.

And this isn't just fictional or untested. We've already hosted and helped over 15 entrepreneurs do exactly this in BETA group which we've been testing out the past several months.

So I want to tell you about it today, because I know there are a LOT of you who have reached out to me asking for help but not knowing where to go.

Some of you I've seen are still in the same spot with your summit creation right now as you were 6 or even 8 months ago. So let's do this.

I know some of you are like, "Mark I don't do courses, I never complete them", and I totally understand that, I'm the same way. Others are like, I wanted to do your Viral Summits Concierge but it's out of my price range, or I didn't act fast enough and now all the spots are taken for the year.

Well here's your solution to all those problems, and to get your summit out there FAST!!!!

Time is money, and time is passing you by.

So let's talk about the Summit Genesis workshop.

It's three days, virtually live streaming, completely interactive and hands on.

Probably the most hands on workshop you'll ever attend.

Ok the three days are:

Day 1: Strategize

Day 2: Build

Day 3: Implement

Day 1: Strategize

Everything from concept & idea to theme and topic selection. We will be covering everything from concept & idea to theme & topic selection. We create a summit proposal with your summit type, sessions, framework, summit offer, engagement strategies and post summit offer.

Walk away with a completely done sales strategy, a written, recorded & ready to use Summit Home video, summit email communication campaigns, and promotional marketing completed strategy with marketing materials created

Day 2: Build It

This is not a theoretical workshop. This is get it done and walk away with a completely ready to rock virtual summit.

We build out your speaker outreach campaigns, with a list of speakers to recruit and interview.

We craft your sponsor packages, and you walk away with a completed professional sponsor deck to send out to get sponsors paying YOU to be on your summit.

Plus the actual Summit Pages. You get to immediately download one of our many professionally developed and created summit funnels (opt in page, thank you page, upsells, speaker info page, products, and everything in between).

Day 3: Implement

Map out your goals and the exact action steps to achieve them. Want to generate 10,000 leads and make six figures? Great, but you have to know exactly how to get there. Understand how to build the list, make the sales, recruit sponsors, and generate post summit sales.

Also the interview process, set up, equipment, and crafting the perfect intro plus the post interview production process. Implement an Ever-Summit strategy that lives on forever, then test it all out in real time to know and see how it all works.

We are going to be working. This isn't sit back and get lectured to our talked at. We have very tangible items that are completed at the end of each of the 3 days to ensure you are ready to rock with your summit once we complete it.

Step 6: Finish The Post Workshop Success Tips

But we don't just leave you hanging. We have on going advance tips, strategies and sessions that you can access, plus a follow up call with a summit strategist to ensure you have perfected the process and are ready to launch your summit.

I'll be your facilitator for the Summit Genesis Workshop. I've called one of the worlds top Virtual Summit Thought Leaders. I went from a brick and mortar business to a multi million dollar online company using virtual summits.

I've created more than 25 of my own Virtual Summits generating hundreds of thousands of leads and millions of dollars, founded the first platform (Virtual Summits Software) for online summits. I'm the host of the top rated Virtual Summit Podcast, creator of the One-Day Summit, and I run Summit Fest Live in New Orleans every year.

With more hands on experience in the summit space than any other person on the planet my mission is to help entrepreneurs get their messages out to the world through virtual summits.

Those who attend the Summit Genesis Workshop get to work with me first hand to ensure their Virtual Summit is a success.

Stop procrastinating! Take 3 Days to create the most powerful marketing strategy your business, brand & program will ever have!

Yes there is an investment involved. However, time is money, and the longer you let time slide by the more money you are losing anyways.

Plus you can either spend 3 days and have a successful summit done, or try to do it on your own in around 90 days and still not be sure if it's going to be a success or not.

Just don't be like so many of the others out there that plan to do a Virtual Summit, but never end up doing it.

It's the most powerful way to build your list, grow your influence, create strategic partnerships and generate massive profits.

So jump in and let's get started.

Thanks and I'll see you on the episode!!
