

### Teacher Tips

- Copy the game pieces on card stock or thick paper. Students will be able to see through regular copy paper.
- Make enough copies of the game for students to play in groups of 4-5.
- Each piece has an English phrase (upside-down) and a Spanish phrase like the one on the right.
- Cut the pieces out and put each deck in a ziplock bag. I put the pieces in small ziplock bags (sandwich size) and number the bags. I make a note of which groups have which number so that if a piece is left on the floor after a class leaves, I know which bag's pieces to count first.

### Directions

- Turn all the dominoes face down and shuffle on the desks. Each player (in a group of 4) gets dealt 6 dominoes.
- You play your dominoes by matching English and Spanish meanings on either end of the dominoes.
- If you cannot play you choose from the leftover dominoes. If there are no leftovers, then you lose your turn.
- First player to get rid of all dominoes wins!
