Put the digital version of this Code as a desktop background/wallpaper on all your devices. Digital versions are included.

Print this version too, for extra absorption of its Light & codes, and laminate it to wear in your pocket (facing inward), and place the larger version under your pillow or bed sheet cover, pet's cushion, under your computer (all facing up), etc.

If unresolved internal blocks start coming up (Starseeds are on a more accelerated path than non-Starseeds) be sure to use the [Soul Fragment Retrieval Session](#) at a minimum, or [ICB](#) or [4 Phases](#).

Either one is great. There's no wrong choice with any one of those three ROBUST resources. The [Soul Fragment Retrieval Session](#) is better if you're relatively new to working with energy.

Much Love ...
