BOTTRONIC

CEO

Jeffrey Voskuil, CEO &  
Founder of BotTronic.io

*CEO of BotTronic, Jeffrey Voskuil (43), was born and raised in the Netherlands. He has been a trader in the Forex & Crypto markets for 7 years. Jeffrey is a proud husband, father & grandfather who loves sports.*

As leader of the BotTronic trading team, Jeffrey is directly involved with the trading and oversees the trading team. All traders are carefully hand selected by Jeffrey himself. BotTronic works solely with traders who have a solid track record and years of trading experience.

# INTRODUCTION

We are taking automated copy-bot trading to the next level. Plan like a human, trade like a machine! Our trading subscriptions are based on 100% copy trading, which means you will never lose control of your funds. You will be able to trade like an expert, handsfree! Join us today and experience the difference!

We focus on what matters and take control of the narrative. We care about our BotTronic members, and we will go above and beyond to guide you on your Forex journey. While the journey starts in Forex, you can expect to see trading opportunities in the Cryptocurrency markets soon.

# EXPLAINED

BotTronic is taking Bot Trading to the next level by using Copy Trading to make the concept of Bot Trading accessible to new, inexperienced & experienced investors.

Copy Trading is a portfolio management strategy where you “copy” the trades of another trader or bot automatically.

Users do not have to transfer funds to the BotTronic Copy Trading Platform. Instead, all funds are stored and traded safely from their own personal broker accounts using one of our partnered Brokers combined with the free MetaTrader 4 Software.

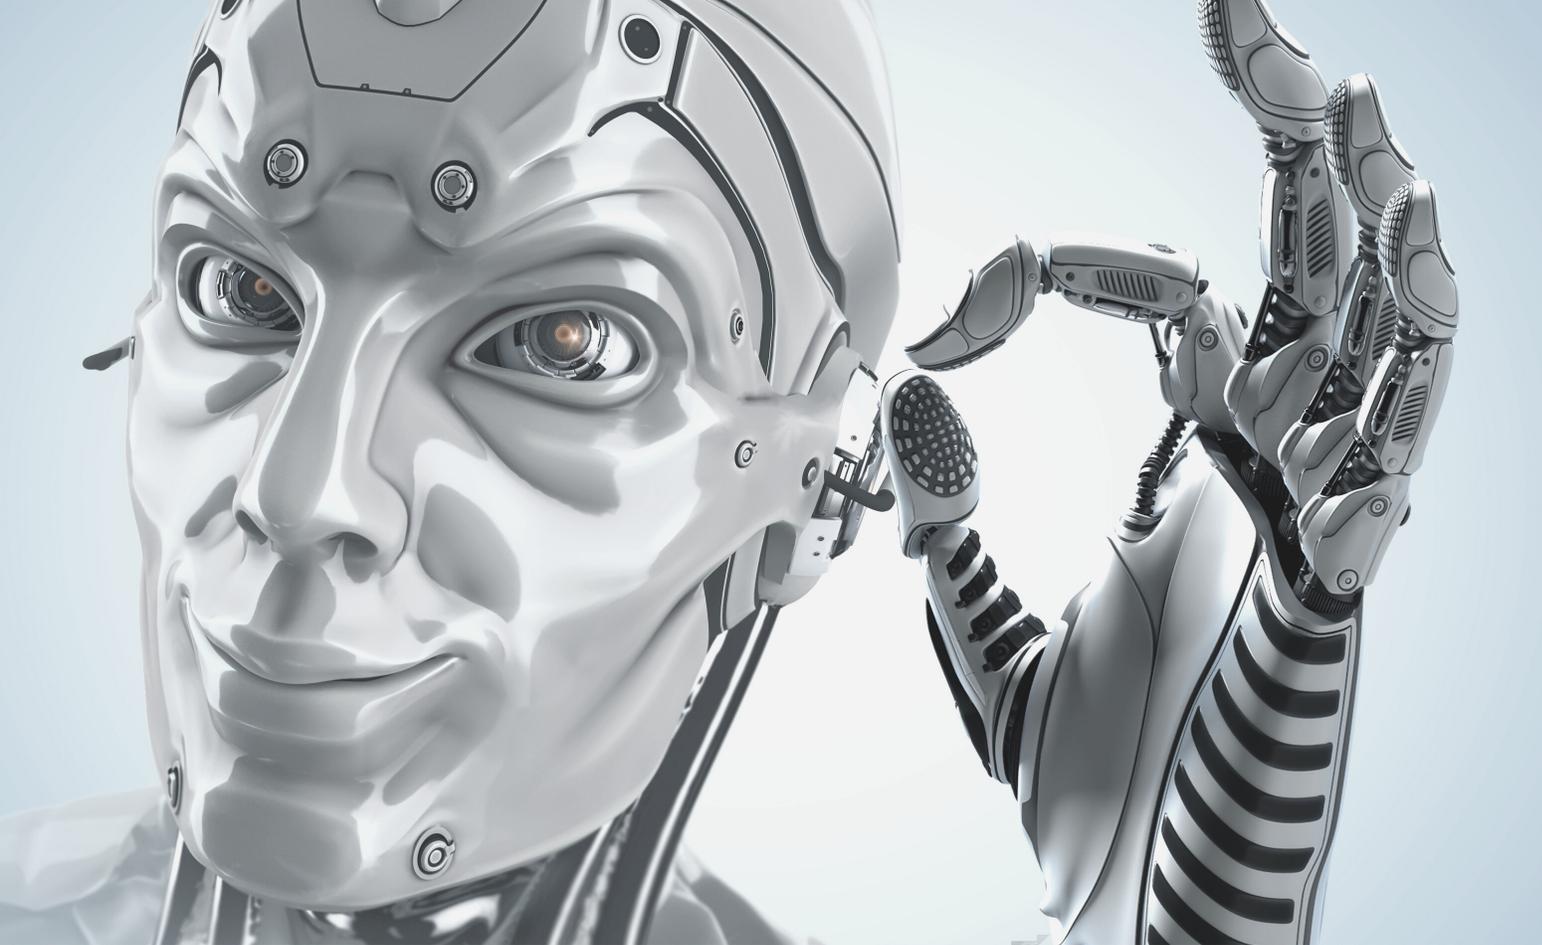

BotTronic serves as a bridge for the interaction between the accounts of traders and investors through a secured connection.

# THE 6 REASONS WHY

- 1** We are compliant. Compliance matters! We strive to do everything just right. We have partnered with the right professionals and taken care of all the required legalities.
- 2** We are secure. Security is important! Our platform results from the work of top-notch developers, and we use Google Authentication to secure your login credentials and information.
- 3** We are helpful. Helping is in our nature! You will notice that our support & consulting team goes above and beyond to help you in your forex journey.

## ...WE ARE DIFFERENT

4

We are transparent. Transparency is hard to find! We have experienced this firsthand, so we aim to be an open book to our investors.

5

We are global. Global presence is important to us! We are on a mission to onboard investors worldwide and show them the power of trading in the Forex Markets.

6

We are innovative. Innovation is part of who we are and what we stand for! Therefore, we are constantly working to improve & grow our services to ensure a stable ROI opportunity.

# THE MISSION

We have seen firsthand how things should NOT be done, and we have made it our mission to change the narrative and blow all the unethical platforms in Forex and, in the future, Crypto, out of the market. We want to put the control back into the hands of investors, and make it so that Forex & Crypto trading is an experience that allows people to work toward financial freedom. Learning to trade can take years, and even then only a small percentage of traders can do it in a life-changing way. BotTronic allows investors to leverage the experience of seasoned traders and grow their investments fully automated.

It is time for something real & honest. BotTronic is built on Dutch values, and if we can teach you one thing about the Dutch... We are very straightforward and will go above and beyond for our subscribers to offer them top-notch service & results.

# WE ARE THE BRIDGE

When we started thinking about developing BotTronic, we knew that we wanted it to be something different. It was of the utmost importance to us to have our investors control their own investments.

BotTronic is built upon transparency, and we are passionate about putting the control into the hands of our investors. We merely serve as a bridge between the investors and the brokers.

We made sure that the system is compatible with various official Forex Brokers to provide our investors the opportunity to pick the broker they feel most comfortable with.

We take care of the trading while our investors are in 100% control of their investments.

BotTronic is truly taking copy-bot trading to the next level. Join us today!

# SUBSCRIPTIONS

We like to keep things simple, so we have developed 4 subscriptions for you to choose from. The first thing you need to understand is that no company can guarantee results if they genuinely trade in the Forex markets.

The ROI percentages shown in our packages are ROI percentages based on past performances and analysis of the Forex markets. In some cases, a week of trading will close with a loss, while the following week may result in a significant gain.

Your funds are entirely in your control as you will pick the broker you want to do business with.

# AFFILIATE PROGRAM

BotTronic offers its members the opportunity to build a legacy income by becoming a BotTronic Affiliate Partner. The affiliate program is designed to compensate you for each new subscriber you refer to BotTronic.

Commissions are made solely on the price of the subscription. Therefore, there are NO profits or fees paid out from trading or deposited funds.

Commissions are paid to you on a recurrent basis for as long as your referral stays on board. We recommend & advertise that our subscribers should join through an Affiliate Partner.

This is our way of supporting our leaders and ensuring that every single subscriber is connected to one of our affiliates/leaders for additional support and growth.

# COMPENSATION

The BotTronic Compensation Plan will compensate for First Referrals, Secondary Referrals & Tertiary Referrals. This setup allows you to create a legacy income by actively seeking new affiliate partners who are also eager to share the BotTronic opportunity.
