# WORKSHOPS

## HOW TO POSITION YOUR BUSINESS IDEA FOR SUCCESS

FOR ASPIRING ENTREPRENEURS WITHOUT A SOLID BUSINESS IDEA

---

Founders have to choose a market long before they have any idea whether they will reach product-market fit. Moreover, the best predictor of whether a startup will achieve product-market fit is whether there is founder-market fit. Founder-market fit is achieved when the founders have a deep understanding of the market they are entering, and are people who personify their product, business and ultimately their company.

### BY THE END OF THIS WORKSHOP, PARTICIPANTS WILL:

- ▶ Learn how to better manage their personal and business finances
- ▶ Better understand the pros and cons of different sources of capital
- ▶ Identify their ideal funding strategy

## THE OPPORTUNITY COST OF FUNDING

FOR ASPIRING ENTREPRENEURS WITH A SIDE HUSTLE OR NEW BUSINESS IDEA

---

Launching a new business venture costs time, energy, and money. In the beginning stages of this launch, it is common for entrepreneurs to spend and invest more money than they make. With this in mind, entrepreneurs will need to have a stash of money to provide them with a runway that permits them to operate with minimal revenue. Unfortunately, many entrepreneurs fail to raise or save enough capital to fund their business operations before they officially launch.

### BY THE END OF THIS WORKSHOP, PARTICIPANTS WILL:

- ▶ Learn how to better manage their personal and business finances
- ▶ Better understand the pros and cons of different sources of capital
- ▶ Identify their ideal funding strategy

# CRAIG'S QUOTES

“The creative entrepreneur defines their priorities, visualizes their future, and builds a plan to accomplish their goals. Recognize that some people will try to persuade you to make decisions on their terms and not in your best interests. Nobody else in the world can live your life, and it is up to you to make the most out of your current circumstances.”

“The creative entrepreneur understands that journaling fosters self-motivation, clarifies priorities, and increases productivity. In life, our plans are guaranteed to incur some change, but you’re forced to observe and evaluate each of them when they are written down. Do not rely on memory alone, buy a journal, and take the initiative to capture your thoughts on paper.”

“The creative entrepreneur checks their ego at the door and teams up with others to develop mutually beneficial relationships. Realize that nobody is truly ‘self-made’ and only narcissists believe they are successful exclusively based upon their merit. Avoid this trap and humble yourself by working with like-minded people to accelerate your learning curve and increase productivity.”

“The creative entrepreneur accepts the possibility of failure and maximizes the opportunity to learn from their mistakes. Some expectations may fall short of reality and there is always a chance you may not accomplish your goals. Weigh your options, take calculated risks, and remember decisions are what separates the doers from the dreamers.”

*Becoming an entrepreneur is something that everyone can do, yet given all the obstacles we are faced with, to some, it may seem impossible. However, it becomes possible when we're ready to make the conscious decision to leverage the resources at our disposal to create something out of nothing.*

*Every day may we arrive at various crossroads within our personal and professional lives and it is up to us to make optimal decisions that propel us forward. Although, each decision has its pros and cons, it is how we respond to our present circumstances that determine our outcome.*

*Those who navigate through the waves of life with control and purpose will find their calling and rest assured they will find their journey in life was purpose filled.*
