Who the hell is John Mulry anyway?

Dan Kennedy – The 'Millionaire Maker' and Highest Paid Direct Response Marketer on Planet

"John was lucky enough to be personally mentored and trained by me.

He's equipped with an arsenal of tools that any small business owner can pick up and run with to start producing big time, bottom line results.

This is exactly the kind of advice I needed when I started my career... but nobody who really knew what was going on was willing to share.

If you're a business owner and you want real improvement in your business then I highly suggest you listen to what John has to say."

*"The thing about John that most people aren't willing to do, is to **actually apply the best practices that they learn to their own business and life in order to achieve maximum effectiveness in minimum time.***

I love the fact that John lives and breathes what he teaches. One of his most important concepts is summarized in his three words: invest, consume and act.

If ever there was a simple definition of how to succeed, John has 'nailed it'. Moreover, he's living proof that the invest/consume/act model works."

you're about to see why...

Why do most businesses fail even though there is so much information out there?

1. They lack belief in themselves, don't think they can do it on their own.
2. **They're focused on Social Media instead of a distribution channel they OWN.**
3. They lack a quality product/service the market wants.
4. **No marketing strategy and no positioning.**
5. Lack of tools and/or confused by the technology side of things in their business and **NO SYSTEMS.**

In our short amount of time today

- I've condensed, cram-packed and squeezed together as tightly as possible a whole process for the succeeding online...

The Reality

- Even if you only use just a tiny fraction of all we covered today, don't you feel like you've taken a gigantic leap forward with your marketing?
- I don't know what you knew about email marketing or consulting coming into the training today but it'd be a safe bet that some or all of what we covered today was new and valuable to you...

On this webclass

- I also showed you why your lack of results, frustration, confusion, information overload and questioning whether or not you have what it takes is a GOOD thing.

On this webclass

- The \$22.16 Billion Dollar Industry and why email marketing will be one of the most lucrative, stable MEGA opportunities and profit centres in your business and why it's here to stay.

On this webclass

- I also showed you how to leverage opportunity and systems to operate your business like a McDonald's.

On this webclass

- I also showed you the five phase 'Renegade Method' S.Y.S.T.E.M for acquiring buyers and getting HIGH TICKET clients.

And much, much, much more....

**Has our time on the webinar thus
far been well spent?**

**Do you now feel more confident
with starting or growing your online
business?**

Can you see how even just one or two things I showed you today can help you in your business, regardless of whether you're new or established?

**Do you now feel more comfortable
with your ability to make money?**

**Have you come up with some
good ideas you already feel
excited about implementing in
your business?**

**Are you excited to make a go out
of this and see what wonderful
things opens up for you in life?**

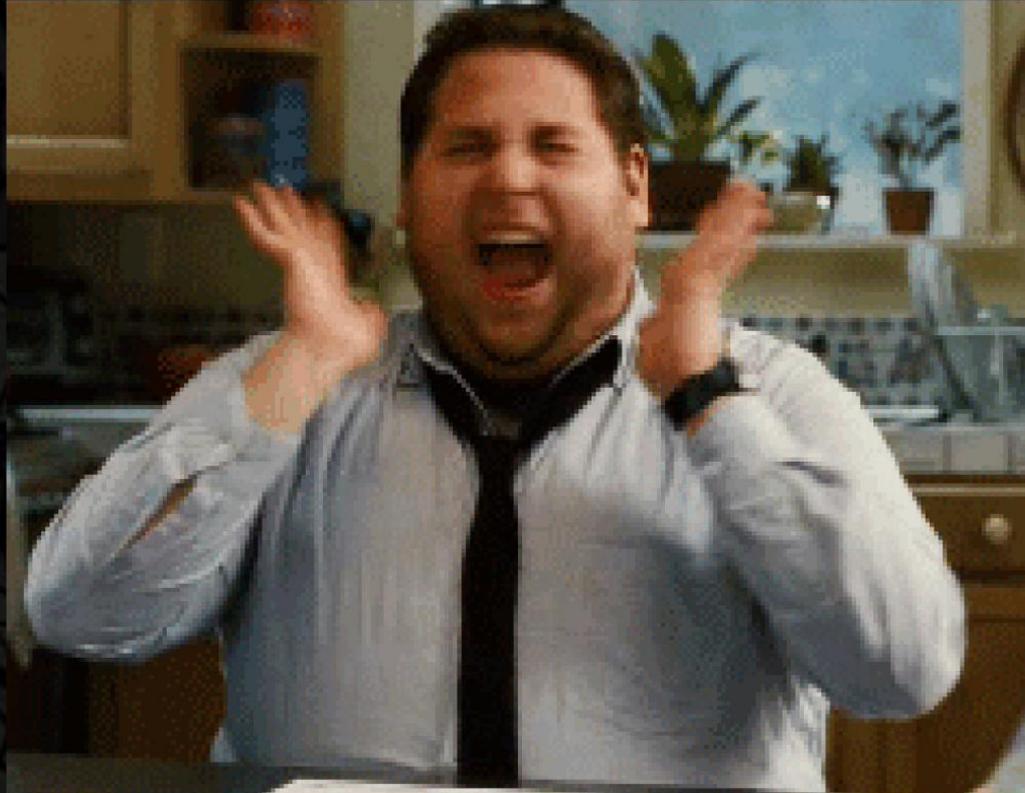

If I had shortcuts, support systems and additional insights that go even deeper and more thoroughly into getting you the result you want, desire and quite frankly deserve...

to me ▾

Ty...i'm not stroking you. My experience is in banking and business process automation, very lucrative but very long sales cycles. My largest deal does about \$8billion a year and i've been working on another deal for a year thats \$40billion

I'm an expert in the field...

I've been messing with locally focused services for a while, but 99% of the training falls very short, leaving gaps that prevent you from becoming the expert you need to command higher fees or to simply get the results that enable you to maintain clients

Its important for me to have expertise and to deliver results to accomplish this and to fill the gap that exists when my core business deals taking longer than expected

You are the first person to deliver this, i dont even want to tally up how much i've spent on shit programs over the past 2 yrs looking

I cannot put into words how much this means to me

Thank you very much John

A white thought bubble with a black outline is positioned to the left of the dog's head, containing the text "Why you doing this?". The background is a blurred green field with yellow flowers.

Why Digital Academy Pro is Right For You...

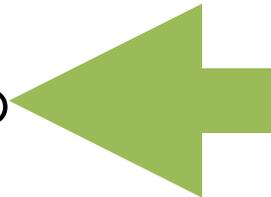

- **You don't need any technical skills. It is all done for you. Everything. Fact: Anyone who watches this webclass today has what it is needed to have the same success with it.**
- This works better in the current economy as like I mentioned this is a blue ocean opportunity and people WANT what you're selling.
- **You don't need a product or an existing business. This is just that. I've created them for you.**

Why Digital Academy Pro is Right For You...

- You don't need to be an expert. The training walks you through everything. The products, courses, and campaigns are all done for you.
- **You don't have to work with clients if you don't want to. Obviously if you do you'll make more money but the passive income lead machines I'm giving you will work on their own too. The choice is up to you.**

Why Digital Academy Pro is Right For You...

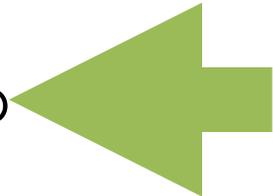

- You don't have to quit your full time job. You can do this part time with just a few hours a week. The more time you put in the more money you can make of course.
- **This doesn't have to be your only business. If you are passionate about other types of things, let this be the profit centre you need to fund the other stuff you also enjoy.**
- This business can run on autopilot, so even if you don't want to "Run" your own business, it contains many set and forget features. Once you automate the traffic, the rest is taken care of with a few hours per week.

Why Digital Academy Pro is Right For You...

- **Even though it does not cost much at all to get started, you can start seeing profits right away. This is a FAST-START and TURN KEY business. I made it that way so we both can make money out of the gate.**
- **You don't need to hire anyone or have any staff. This is all set up to run itself with minimal attention by you other than supplying the traffic (which I show you how to do) and working clients (which I show you how to do).**
- **Other types of businesses are hard and flawed. This is the one business that gives you an unfair advantage.**

Why Digital Academy Pro is Right For You...

- And you don't need to buy any expensive inventory, any office equipment, get a lease or rent an expensive office space. You can get maybe 25 copies of your co-author book (which I show you how to get) and sell them on demand. But you will have a REAL business.
- **You only other thing you'll need to make this work is a shared Clickfunnels account which will cost you as low as \$19 per month and an autoresponder account which you probably already have.**
- After you buy your license today, all you will need is to buy a domain name for about \$10 and link everything up (which I show you how to do)

Why Digital Academy Pro is Right For You...

- **This is strictly limited to 500 partners.** I am only looking for 500 partners and don't want to over saturate the market (if that's even possible given in the US alone there is more than 27 million businesses). **You are fortunate to be on this webclass because others will not have the chance or opportunity you have.** Once this is over so is the opportunity.
- **Your success is my success so I have a vested interest in your success.**
- Together we can help 1,000,000 businesses by 2030 – be a part of something special.

Act Now Bonus: Monthly Live Q&A Calls

This program doesn't just come with the **PROVEN SYSTEM** and **COMPREHENSIVE TRAINING**, it also comes with my personal time to help you succeed!

With this powerful component, I can guide you "systematically" to making DAP work for you. For instance, for the first 30 - 60 days or so, your questions may be more towards matters related to "how to use" the system.

And as you get more familiar and your expertise increases, you'll start to ask further questions related to email marketing, traffic strategies or "hacks". **Therefore, the Q&A Training Call will be ideal to work with you for short term - and long term growth.**
