

Teacher's Guide

Prior Knowledge:

- Students should know a variety of greetings
- How to ask and answer what someone's name is
- How to ask and answer how someone is doing
- Students should know a variety of ways to say goodbye

Duration:

- I had my 7th grade students complete this project in one 50-minute class period.

Completion:

- After I explain the project and the Rubric, I show them the example, which I usually hand draw, so they can see what I want them to do. Then I have students write their sentences on the Rough Draft and give them the Final Draft paper.
- I also handed out colored pencils, although crayons, markers, or just regular pencils would work fine as well.
