Other teachers in her life include Dr John Demartini, Marci Shimhoff, Debra Poneman, Bob Proctor, T. Harv Eker, David Neagle, Robin Banks, John Kehoe, Ken Wilbur and Gregg Braden. Whether she's enjoying a friendly putting competition on a golf estate with Ernie Els or studying after hours, Kristen is always thirsty to improve her knowledge, connections and wisdom.

"As Lao Tzu wisely taught us: **'When the student is ready, the teacher will appear. When the student is truly ready, the teacher will disappear.'**

One of the greatest blessings in my work is when I get to refer my beloved clients to a new teacher, mentor or coach at a higher level than myself. They've learned all they can from me and are now ready to expand their wings under someone else's guidance."

*Kristen*

Kristen offers high touch, high impact mentorship services to her premium clients. She also shares a VIP Guest Panel of Experts from around the world to help her clients enjoy multi-dimensional expansion as they evolve in eight key life areas.

**"A master in the art of living makes little distinction between his work and his play, his labor and his leisure, his mind and his body, his information and his recreation. He hardly knows which is which.**

**He simply pursues his vision of excellence at whatever he does and leaves others to determine whether he is working or playing. To himself, he always seems to be doing both. Enough for him that he does it well."**

She currently studies neuroscience under brilliant guidance by Mark Robert Waldman, focusing on NeuroLeadership for Executives and Advanced Trauma NeuroCoaching.

Today, Kristen successfully guides others in human potential, team dynamics, and conscious business growth through her vast experience across three continents.

#### 2 Quick Story Summary (222 words):

In February 1999, Kristen was a happy waitress... and she still appreciates the skills and life lessons learned through her season as a server today. From humble beginnings that included living out the trunk of her car, little did Kristen know how all these amazing experiences would shape her destiny!

She started her first business in 2010 with nothing but a laptop, big dreams, and the relationships she'd built until then. Three years later, she became an audited millionaire paying multiple 6-figures in payroll taxes alone. Since 2013, Kristen has bought, build and/or sold another five companies across four countries and three continents.

On Christmas Day 2015, however, Kristen realized she was unfulfilled. She made a firm decision to release all the hustle from her life and focus on one thing exclusively: to help other people build profitable, sustainable businesses that they love to lead \*every\* day, even on the tough days. And to do this without the typical overload of stress or family sacrifice.

After a career sabbatical on a tropical island in 2017, Kristen came back rearing to go with her revamped Flaming Silver brand: the small business she'd been trading through privately since 2011. She strategically expanded this business across international waters, and thrives today because of the most important foundational principle: **success without fulfilment is the ultimate failure.**

#### 3 Wildfire BIO by Kristen (240 words):

I'm a spirited soul and a delirious fan of this game called *Life*. I'm a pet mom, nature-loving adventurer and a passionate animal advocate. I'm also a seriously committed businesswoman who thrives in conversations about money, wealth, assets, investment portfolios, higher consciousness, personal development, neuroscience, the quantum field and contribution.

As a down to earth human from humble beginnings, also believe that every human deserves to feel deeply fulfilled, valued and purposeful every day no matter their chosen path.

Somehow, through the ups and downs of the thrilling yet wholly rewarding ride we call entrepreneurship, I heeded my calling to help others through mentorship. A born people lover and forever-student of the limitless realms of human potential, I've devoted the rest of my life to helping as many others as I can reach through my love for my work.

True success is living a rich life of inspiration, fulfilment and experiences despite the challenges that will inevitably show up. That's what makes life meaningful and significant. Living your day-to-day experience in a way that makes you profoundly grateful is both energizing and liberating: it's authentic freedom and wealth from within, even as you continue to evolve and elevate your life on multi-dimensional levels.

Success, and how we define it for ourselves, is unique to every individual. It deserves personalized attention and dedication so that, when asked the question: **"Are you happy every day?"** you can answer with a resounding YES!
