

Bead Weaving with Monofilament

Materials needed for this project

- 1 pc Magnetic Clasp
- 1 x String 9x12 faceted Crystal Rondelles
- 1 x Reel 0.25 invisible thread
- 1 x String of 4mm glass pearls
- 2 pc Head pins
- 1 x pair of Earwires

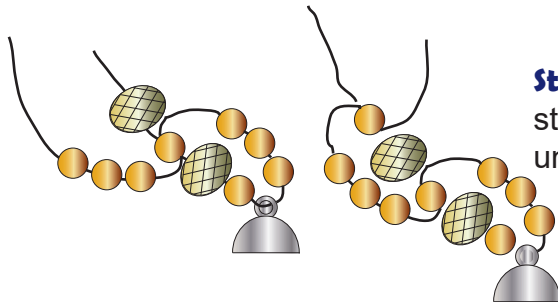

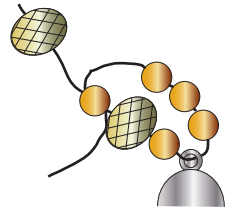

Bracelet

Step 1. Take about 1 metre of invisible nylon thread and thread through the loop on 1 part of the magnetic clasp, make sure the clasp is in the centre of the length of thread.

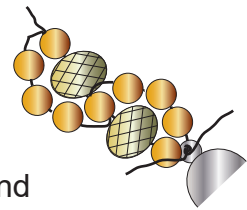

Step 2. Pick one side and let's call this string 1, start by threading on 1 x pearl, 1 x crystal, 1 x pearl, 1 x crystal, 1 x pearl etc.. until you have threaded on 16 crystal beads, but make sure you finish with a pearl.

Step 3. On the other side of the clasp, pick up your other thread, let's call this string 2, thread on 3 x pearl and then pass down through the 2nd pearl on string 1. The string needs to be threaded in the opposite direction to the direction you have already threaded with string 1.

Step 4. On string 2, thread on 3 more pearls and then pass your string through the next pearl on string 1. Continue this pattern until you have reached the last crystal and threaded the last 3 pearls.

Step 5. Add the loop of the other side of your clasp onto string 1 and then tie tightly with double knot. The knot needs to sit inside the loop of the clasp. Then take your string ends back down a few beads in the opposite direction and snip off excess.

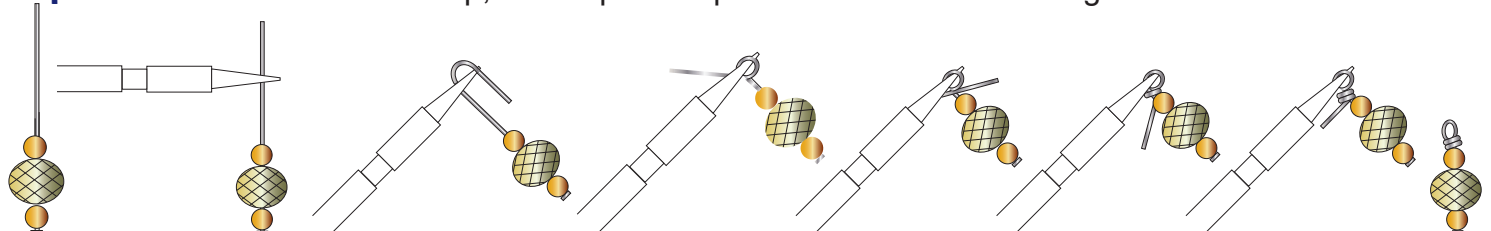

Earrings

Step 1. Take a head pin and thread on 1 x pearl, 1 x crystal, 1 x pearl.

Step 2. Then using round nose pliers, make a loop with the head pin wire, twisting the wire back around upon itself. Cut off excess.

Step 3. Attach ear wire to the loop, then repeat steps 1 & 2 for the 2nd earring.
